

The Sojourn elders are excited and grateful you have stepped out in faith and want to work through the Sojourn Counseling training curriculum. We know you will find the material encouraging and challenging and we pray you will grow in your own walk with Christ and will be more effective in helping others to live out the gospel.

You should fill out this application if you want to learn more about gospel counseling but do not want to seek certification. We ask you provide the following information for our records so we can assist and encourage you as you go through your study. The curriculum training includes the Porterbrook Modules, specific Sojourn Counseling material, and articles from other authors. You will be required to complete written exercises, attend monthly review sessions, and pass certification level exams. Your progress will be monitored and supervised. If you later decide to pursue certification, you will need to participate in the required counseling observations, counseling supervision, and case conferences.

Should you have any questions or comments feel free to contact your Ministry leader or contact us via e-mail at counseling@sojournchurch.com. We pray that God will bless you as you work through each lesson and that you will experience a better upstanding of God's love and care.
